

STATE OF FLORIDA
DEPARTMENT OF HIGHWAY SAFETY
AND MOTOR VEHICLES
DIVISION OF DRIVER LICENSES

DRIVING TEST – CUSTOMER INFORMATION SHEET

The following information is provided to help you with the road test portion of your driver license examination.

Please remain calm. I hope you display the driving skills and attitude necessary to qualify for a Florida driver license. There are no quotas to meet and I do not benefit from failures in any way.

Adequate preparation and knowledge are your responsibility. I am not permitted to teach you how to drive. It is my responsibility to observe and record your performance according to the established laws, rules and regulations.

There are no tricks on the test and I will not ask you to do anything illegal. I will give you directions as we go along. Please pay close attention and obey all speed limits, traffic laws and signs, throughout the test.

Any driving violation that could result in a traffic citation will immediately disqualify you. Some other reasons for disqualification are excessive points, a crash, a dangerous action, lack of cooperation, coaching from others, refusal to perform a maneuver, or an attempt to bribe or coerce me.

I will discuss your driving test results with you when we return to the office. My decision about your performance is final in all cases.

Driving tests are administered when it is raining but not when the route is considered hazardous due to standing water or violent weather.

You must provide a vehicle for the driving test. The vehicle must:

1. Have a valid license plate.
2. Have a valid vehicle registration
3. Have proof of valid Personal Injury Protection and Property Damage Liability Insurance.
4. Pass a vehicle safety inspection.
5. Have operable seatbelts (exception: cars manufactured prior to 1968 and trucks manufactured prior to 1972).

-Over-

It is your responsibility to know how to perform the maneuvers listed in the Florida Driver's Handbook. You will be asked to demonstrate some of the maneuvers during the road test, they are but not limited to:

Straight-in Parking

Park your vehicle in an 18' x 9' parking space with parking standards on both sides of the space. The rear parking standards represent the rear of the parking space. The forward markers represent the center of the parking space. The vehicle should be centered in the parking space without any part of the vehicle extending out into the traffic lane.

Turnabout (also known as a Three-Point Turn, K-Turn, or Y-Turn)

Turn your vehicle around in a 30' to 40' area and go in the opposite direction without doing a U-turn.

Quick Stop

Stop your vehicle quickly and safely without sliding or skidding the tires.

Backing

Back your vehicle 50 feet at a slow speed. Look through the rear window whenever practical instead of using the rear-view mirrors.

Parking on a Hill (simulated on courses without hills)

You will be asked to demonstrate what you would do to prevent your vehicle from rolling out into traffic if you were going to leave it parked facing up or down a hill.

This information is intended to assist you in obtaining your Florida driver license. We wish you the best of luck on your test and you have our sincere wishes for many years of safe motoring.
