

Driving Test CUSTOMER INFORMATION SHEET

During the driving test, the examiner will give you directions as to where to go and what to do next. There are no tricks on the driving test and you will not be asked to do anything illegal. Pay close attention to the instructions and obey speed limits and traffic laws at all times. Remain calm at all times and perform the maneuvers to the best of your ability.

Please note: Adequate preparation and knowledge are your responsibility. Your DMV Tester is NOT permitted to teach you how to drive. It is their responsibility to observe and record your performance according to the established laws, rules and regulations.

You are expected to perform the following maneuvers on the driving test:

- **Approach of Crossing** – Get in the proper lane and look in each direction. Change gears smoothly and correctly (if your car has a manual shift transmission).
- **Backing** – Back for a distance of 50 feet at a slow speed. Do not use the rear-view mirror when backing, Look to the rear instead.
- **Follow at a Safe Distance** – Do not drive too closely behind other cars. Use the Four Second Rule.
- **Observe Right-of-Way** – Allow pedestrians to cross, pull over and stop for emergency vehicles and do enter an intersection where you will interfere with other traffic.
- **Obey Stop Signs** – Give the proper signal if turning, approach in the proper lane, come to a complete stop before reaching the pedestrian crosswalk or stop line and remain stopped until you can move safely without interfering with cross traffic or pedestrians. Keep in mind that most intersections contain legal crosswalks; marked or unmarked. An unmarked crosswalk is the portion of the roadway at an intersection that would connect the opposite sides of the street.
- **Obey Traffic Signals** – Get into the proper lane and approach the light at a speed that will allow you to stop if the light should change. When you must stop, stop before the pedestrian crosswalk or stop line. When the light turns, green, do not move forward until the other traffic has cleared the intersection. Give the correct signal for stopping and turning. Watch for “no turn” and “one way” signs.
- **Passing** – Always look ahead and behind to make sure you can pass safely. Pass on the left, unless the car ahead is about to make a left turn or is in the left turn lane on a street with more than one lane in each direction. Do not pass on the shoulder (side of the road).
- **Shift Gears** – Change gears smoothly and correctly (if your car has a manual shift transmission).
- **Straight-In Parking** – Park your vehicle inside the parking space straight-in. When properly parked, the vehicle should be centered inside the space with no part of the vehicle extending out in the traffic lane. This maneuver gives the examiner the opportunity to observe your ability to:
 - a) handle the vehicle in close quarters
 - b) judge distance
 - c) maintain control of the vehicle as you turn into a straight-in parking space
- **Parking on Hills** – When parking on hills: Turn your wheels so that if your car starts to move, it will roll away from traffic or into the curb. Study the diagram. Set the parking brake. Place automatic gear shift in park. Shift manual gears to reverse (downhill) or first (uphill). Turn vehicle off.
- **Stop/Start on a Grade** – If there is no hill on your driving test, this maneuver is simulated when the car in the straight-in parking space or when the car is pulled over to the side of the road before the turnabout maneuver. You will be instructed to show or tell the examiner what you would do if you were going to leave the vehicle parked up or down a hill, with or without a curb.
- **Stop Quickly** – Drive at 20 miles per hour and make a quick, safe stop without sliding or skidding tires, when the examiner instructs you.
- **Signal and Turn** – Get in to the proper lane and signal your turn for the last 100 feet. You may use either hand signals or mechanical signals. Slow before reaching the crosswalk and turn in to the proper lane.
- **Stay in Proper Lane** – Drive in the right lane except on a one-way street. Do not change lanes until you may do so safely.
- **Turn About (Three-Point Turn)** – Turn your car around in a 30' to 40' space. Always begin turning to your Left.
 1. Drive, Wheels, Left, Left signal.
 2. Reverse, wheels Right, Right signal.
 3. Drive, wheels Left, Left signal
- **Use Proper Posture** – Keep both hands on the steering wheel and do not rest your elbow in the window.
